

## Annual Return Graph

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 December 2023.

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

## What fees are investors charged?

Investors in the Lifestages World Equity Portfolio are charged fund charges. In the year to 31 March 2023 these were:

|  | % of net asset value       |
|--|----------------------------|
| <b>Total fund charges (estimated) <sup>2</sup></b>       | <b>1.54%</b>               |
| <b>Which are made up of -</b>                            |                            |
| <b>Total management and administration charges</b>       | <b>1.54%</b>               |
| Including -  |                            |
| Manager's basic fee                                      | 1.09%                      |
| Other management and administration charges <sup>3</sup> | 0.45%                      |
| <b>Total performance-based fees</b>                      | <b>0.00%</b>               |
| <b>Other Charges</b>                                     |                            |
|  | Dollar amount per investor |
| <b>Other charges</b>                                     | <b>\$0.00</b>              |

The percentage shown for the 'Other management and administration charges' includes an estimate of the fees and expenses incurred in the underlying funds in which the fund invests.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the 'Other Material Information' document for the Lifestages KiwiSaver Scheme on the offer register ([www.disclose-register.companiesoffice.govt.nz](http://www.disclose-register.companiesoffice.govt.nz)) for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

## Example of how this applies to an investor

Hayley had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Hayley received a return after fund charges were deducted of \$1,953 (that is 19.53% of her initial \$10,000). This gives Hayley a total return after tax of \$1,877.00 for the year.

## Notes

<sup>1</sup> Note that market indices reflect no deduction for charges and tax.

<sup>2</sup> Includes GST.

<sup>3</sup> This covers expenses incurred in running the fund (e.g. accounting, audit, and regulatory compliance costs). This also covers the Supervisor's annual fee (for the services it provides) and an estimate of fees and expenses incurred by the underlying funds. Our estimates are made on the basis of reasonable assumptions about the ongoing level of fees and costs expected to be charged (taking into account the actual fees and costs as a percentage of average net asset value that were charged for the most recent scheme year). These fees are deducted from, and reflected in the unit price of the fund.
